

TOBACCO FAIR TO BE ARRANGED FOR AT MEETING TONIGHT

Organization To Be Perfected and the Dates Selected at Meeting of Boosters to Be Held at Chamber of Commerce This Evening.

A general meeting of those interested in the 1920 Corn and Tobacco Fair has been called for the Chamber of Commerce this evening at 7:30 o'clock when the fair will be discussed in detail and many of the arrangements for the biggest and best fair of the kind yet will probably be made.

Arrangements have already been made for the location—which in the past years has been the biggest problem. The Liberty Warehouse Company has kindly agreed to allow the committee to use their large building at Commerce and Third streets and at tonight's meeting the matter of decorating and putting that building in shape for use will more than likely be decided upon. It is understood that the committee will not favor the expenditure of such large sums of money for decoration as has been spent in the past and that more money will be spent for entertainment.

The matter of selecting the date will be the most important matter before the meeting this evening and it is therefore hoped that everyone who is interested in the success of the fair will be present. The matter of showing fairs and stock will also be taken up and various committees will be named to look after certain details such as advertising, decorating, entertainment, sale of booths, etc.

After tonight's meeting, if it is possible to fix the date definitely, the big advertising campaign will be started and it is hoped that the big fair will be advertised all over the Ohio Valley and throughout Central Kentucky so that many out-of-town people will be in attendance. It will likely be for a period of four days and booths around the building will be sold to business houses as in the previous fairs.

The Adina Farms, near Minerva, this morning sold to E. J. Kilpatrick, County Agent of McCracken county at Paducah, a fine yearling Holstein bull at a fancy price. This animal was purchased for the president of the McCracken County Farm Bureau and will be delivered at once.

HARDING OUTLINES PLAN TO AID FARM INTERESTS IN U. S.

Great Throng Hear Republican Candidate for President Outline Progressive Plan for Improving Farm Conditions.

Minnesota State Fair Grounds, Sept. 8.—An agricultural program designed to keep the nation self-sustaining and to improve the condition of the farmer was outlined by Senator Harding, Republican nominee for the Presidency, in a speech today at the Minnesota State Fair.

In specific terms the candidate set forth his policy as contemplating the following steps:

Larger representation for farmers in governmental affairs, particularly with regard to trade and finance.

Establishment of a system of co-operative association for marketing farm products.

A scientific study of the world market for farm products with a view to stabilization of prices.

Curtailling of unnecessary price-fixing and of "ill-considered efforts arbitrarily to reduce farm product prices."

Administration of the farm loan act so as to decrease tenancy, promote diversified farming and provide long-term credits.

Restoration of railroad facilities to a state of highest efficiency.

Revision of the tariff to protect American agriculture from unfair competition. Both reclamation and intensive farming, the nominee said, would have their places in a development of the nation's farm resources to a capacity which would insure to posterity an abundance of domestic food products. He stressed the need for diversified crops and also declared it essential that there be a normal balance between grain and live stock production.

Deplored the drift of population from country to city, Senator Harding advocated an improvement in the social life of the farm and such an administration of economic laws as would insure "a fair balance between our urban and rural industries." He praised the part played by the farmers during the war, declaring that "it never will be understood or fully appreciated by our people."

The candidate described his conception of the future of American farming as contemplating "a system of agriculture which will enable us to feed our people abundantly, with some to spare for export in years of plenty and at prices which will insure to the farmer and his family both financial rewards and educational, social and religious living conditions fairly comparable to those offered by cities."

HEALTH DEPARTMENT GIVEN SCORES BY STATE OFFICERS

First Report of Six Model Health Departments in Kentucky Shows Mason County on the Bottom in Comparison.

Dr. P. W. Covington, director of the Bureau of County Health Work of the State Board of Health of Kentucky, has sent to the Maysville City and Mason county officials the first weekly report on the work done by the various county health departments in Kentucky.

Under a special arrangement there are now six counties in the state of Kentucky with model health departments. These counties are Harlan, Mason, Muhlenberg, Scott, Davless and Boyd. Each week, it is Dr. Covington's purpose to send out reports on work done by these counties scoring each county on the work done.

This week's report shows Mason county at the bottom of the list but this is because of the fact that the local health department is just getting started and within a few weeks we expect to see Mason county at the top of the list where it belongs. The six counties score for this week as follows: Boyd, 401; Harlan, 290; Scott, 317; Muhlenberg, 247; Davless, 297, and Mason 61.

GREATEST CORN CROP ON RECORD IS THE FORECAST

Government Report Shows Corn Will Break Record—Tobacco Yield Is Also Large.

Washington, Sept. 8.—The greatest corn crop in the country's history is in prospect for this year's harvest. Forecast of production based on September 1 conditions was placed at 3,131,000,000 bushels today by the Department of Agriculture. Such a yield would exceed by 6,000,000 bushels the previous largest crop on record, which was in 1912. A crop of even larger proportions will be harvested if frosts hold off until late and permit maturity of much late corn, now rated as of doubtful promise.

Tobacco also is a record crop this year and will probably exceed the best previous production by 114,000,000 pounds. Forecast of production places this year's crop at 1,533,000,000 pounds.

August growing conditions proved highly beneficial to most of the country's important crops and as a result production forecasts generally were higher in today's government report than the forecasts of a month ago. Corn improved to the extent of 218,000,000 bushels; oats 40,000,000 bushels; white potatoes, 11,000,000 bushels; sweet potatoes, 1,000,000 bushels; tobacco, 10,000,000 pounds, and apples 10,000,000 bushels. Spring wheat, however, suffered a loss of 25,000,000 bushels because of drought and flax lost 2,500,000 bushels from the same cause.

CLEANING UP STREETS AFTER BIG WASHOUT.

The street cleaning department is very busy just now cleaning up the city's streets after Sunday's big washing rain. EARTHQUAKE TOLL INCREASES AS THE REPORTS COME IN

Dead In Italian Earthquake Reaches 300 and Thousands Are Reported Homeless.

Rome, Sept. 9.—With the number of casualties and extent of the damage from Tuesday's earthquake still undetermined, slight shocks recurred late Wednesday throughout the Lunigiana and Versilia districts, in the region of Genoa.

Latest reports showed more than 300 known dead in the large area affected by the quake with prospects this number would be increased by several hundred as communication was re-established with isolated communities.

Thousands are known to be injured and the number of homeless was established at 500,000 to 750,000.

King Victor Emmanuel, who was in Pisa when the shock occurred, joined relief parties and visited several ruined towns today in company with General Cittadini and Cardinal Mafl.

Despite entreaties of his staff, the king insisted upon entering houses on the verge of collapse. He visited the injured in the hospitals and made several addresses to the homeless.

PEOPLE IN GLASS HOUSES.

Mr. Jimmy Cox, living in a perfectly transparent glass house, is throwing whole hands-full of stones. Inside the glass house, Boss Murphy of New York's Tammany and Boss Nugent of New Jersey and Boss Fagart of Indiana and Boss Brennan of Illinois vainly hunt for shadows behind which to hide themselves and their lean and hungry look. But they loom up plain as day—(glass sometimes magnifies, you know)—while their Mister Jimmy screams horrendous words at his adversary, charging that some sort of an "oligarchy" controls the front porch at Marion. Perhaps Mister Jimmy is reverting to a new and refined adaptation of the ancient strategy which recommended a "Stop Thief" cry to the chup who was himself seeking to escape similar indictment. Be that as it may, Mister Jimmy's glass roof is inevitably sure to be punctured with stones coming home to roost—(pardon the mixed metaphor). It is as sure as the laws of gravity that if Mister Jimmy wants the country to hunt out hidden sources of influence behind candidates for President, Senator Harding can well afford to court the scrutiny. This "Senate Oligarchy" which Mister Jimmy perpetually waves, like a red shirt, before his exploited auditors is a creature of convenient imagination. (Indeed Mister Jimmy makes us think of nothing quite so much as a boy in a rare-bit dream). But the fine, machine-made quartette of adroit, professional politicians who judiciously maneuvered Mister Jimmy's nomination at San Francisco is composed of very real and very tangible entities who are not in business for their health. And as for "domineering arrogance" (one of Jimmy's phrases, hurled at Senator Harding's colleagues), we are irresistibly reminded that the world's greatest, unparalleled exhibition of "domineering arrogance" has been furnished by another certain gentleman who is an "oligarchy" all by himself and with whom Mister Jimmy (according to White House testimony) is "absolutely at one"! (For further particulars consult the late Mr. Robert Lansing, who got the axe for thinking one thought of his own). So, for the sake of his glass roof and the physical well-being of his Patron Saints who may be cut by flying splinters, we think Mister Jimmy will do better and certainly more creditably to himself if he gives this "oligarchy" thing a rest. Really, it is unbecoming a presidential aspirant—unless he can prose his ease—to talk like a soap-box orator; and who, no matter how politically astigmatized, really believes that Mister Jimmy was doing anything but shouting to the top-galleries for unthinking applause when he went so far (last Saturday) as to charge that the Senate and the American Woolen Company are in some sort of a mutual profit-taking conspiracy in connection with the latter's shut-down of its mills! There are some arguments that should be left to Gene Debs. Mister Jimmy may not believe it, but we like his two-fisted, fighting, campaign style. The point is that there is a difference between a "campaign" and a "shindy."—Grand Rapids Herald.

**This section certainly owes
a lot to the automobile**

LOOK at it just from
the business stand-
point, compared with,
say, ten years ago—or
even five.

Everything speeded
up—made easier.
Nearly every business
man depending on the
automobile to trans-
port himself and his
products.

That is one reason, per-
haps, why more attention is
being paid to tires—why tire
costs are being figured closer
and people are beginning to
look for better tires.

We believe that people are
entitled to better tires—the
best they can get.

Not only the man with the

big car, but the man with the
small car, and the medium
sized car.

We represent U.S. Tires
for that reason—because
their policy is the same as
ours—every tire as good as
you can get it, regardless of
the size of the car it is to
go on.

It was that policy which
led to the introduction of the
straight side automobile tire,
the pneumatic truck tire.

And you can't beat it.

U. S. Tires are guaranteed
for life, with no limitation
of mileage.

It will pay you to talk to
us about tires, if you are
looking at them from a
business standpoint.

SHOE SHIELD COMPANY TO INSTALL MACHINERY.

The Augusta Chronicle Says: "The Augusta Shoe Shield Company has moved to the ware-room building belonging to Wolfe & Work on Upper street, formerly used by them as a storage room. M. J. Hennessey, manager of the Shoe Shield Co., went to Cincinnati Friday to purchase machinery for the manufacture of the shoe shield and heel plates, which have heretofore been manufactured by the F. A. Nelder Co. For several months this company carried on an extensive advertising campaign and they received orders from every state in the Union as well as from many foreign countries, and the shoe shields seem to have given general satisfaction, although the company has been somewhat handicapped owing to its inability to get the best quality of steel. Mr. Hennessey says the Shoe Shield Company is destined to become Augusta's largest enterprise."

Plenty of Heat and a Big Saving of Fuel

No more bother with stoves or grates. Single register furnaces heat whole home. Burns any fuel and less of it.

THE Williamson Pipeless Furnace with a single register sends generous warmth coursing all through your home. It saves the bother of stoves and grates and consumes less fuel. Burns hard or soft coal, coke or wood.

THE WILLIAMSON PIPELESS FURNACE

has solved the heating question on the farm. It can be installed in old or new homes without tearing up the floors and walls for pipes and flues. It goes into the cellar but does not heat it—all the heat goes up through the register—there's no waste.

The Williamson Pipeless Furnace has proved wonderful to hundreds of farm homes. It is well-built and the strong Williamson guarantee goes with it. Come in and see one.

Aberdeen News

Mr. Clyde Baxter, of Cincinnati, spent Saturday and Sunday with his parents, Rev. and Mrs. Baxter, here.

Miss Ruth Boggs, of Walnut Hills, Cincinnati, is visiting her grand-parents at this place.

Miss Mary Frances Bennett, of Market street, is visiting friends in Cincinnati.

Mr. Tom Madigan has been in Cincinnati for several days, convalescing from his recent illness.

Miss Jessie Florence Boggs has returned from an extended stay with her grandparents at Georgetown, Ky.

Hearts of Ohio veterans and their widows were made glad Saturday when checks from Uncle Sam were passed around bearing considerably larger figures. But two of the veterans, Mr. McDaniels, and Mr. Sanders, colored, passed away just before the check arrived.

Mr. Sanders was ninety-two years of age, and was probably the oldest citizen of Aberdeen.

The Aberdeen public school opened Tuesday of this week, with a new principal and one new teacher.

The Baptist Sunday school had its annual picnic at the church Monday and was much enjoyed by the kiddies.

The Old Narrows School house that stood on the Manchester pike two miles east of Aberdeen was sold to W. F. Lewis, who is moving it to Aberdeen and will erect a barn of the materials. The children of that district have been coming to the Aberdeen schools for three or four years. It seems to the writer that the passing of the country school is a step backward.

The consolidated school may be all right for the children living near it, or to those who can get to it in any way, but many children are deprived of much schooling they should have because their school is taken from them. The counties which stick to the old system with a schoolhouse in every three or four-mile district has chosen the better way. It is not always the newest thing that is the best thing. Schools should reach and educate the greatest number of children, in the best possible way, even if the teacher or school superintendents are put to some inconvenience in doing so.

SHOTGUN IN CHILD'S HANDS ACCIDENTALLY DISCHARGED.

Considerable excitement was created in the neighborhood of Commerce and Third street this afternoon when Mrs. John Bush discovered her son, Charles, about six years of age, with a shotgun in his hands. In endeavoring to take the gun from the child, the weapon was discharged and although no one was injured, there was much excitement created in the neighborhood.

RIPLEY MAN IN TROLLEY WRECK.

The Ripley Bee says: "Phil Lina, son of Mr. Philip Lina, of Ripley had a narrow escape from death on August 29th. He was on an electric car going from Cleveland to Wellington to catch a train to Ripley when the car he was on crashed into another car ahead of it, his car penetrating fifteen feet into the other car.

Three persons were killed and many injured in this accident. Phil had a bad cut over his right eye which required several stitches to close and was severely bruised and scratched, all of which held him in hospital a few days, and then he came on to Ripley. Before leaving he adjusted his claim against the railroad for damages and effected a satisfactory settlement.

INTEREST SHOWN IN NEXT SUNDAY'S GAME.

Considerable interest has been taken by local fans in the announcement that the Ft. Thomas soldier ball team would play an American Legion team here on next Sunday afternoon. This game promises to be the best game of baseball played in Maysville this year and it is expected that there will be many in attendance. Because of the soldiers being compelled to return home Sunday evening, the game is scheduled to begin at 1:30 o'clock.
